WORKING WITH TRUECORE® STEEL

SERIES: MAKING FRAMES AND CORNERS

SCREW FIXING STEEL BUILDING FRAMES

1 When using lithium battery impact drivers, easily access C-channel recesses by snapping on an extended hex insert bit.

2 Regardless of the position or height of the job, an impact driver fixes quickly with minimum exertion – the tool’s impact feature does most of the hard work for you.

3 Self-drilling low-profile screws that fit impact drivers are available from fastener suppliers.

4 Self-drilling low-profile screws are designed for jobs where a flat surface is required, such as fixing cross braces onto wall frames and for plasterboard fit-up.

5 ‘Quik-Drive Pro’ stand-up extensions fix timber or fibreboard to steel frames easily and efficiently.

6 The ‘Quik-Drive Pro’ tool can be purchased with adaptations to fit many screw gun drivers on the market today.

7 Collated screw magazines are easily inserted or removed into the ‘Quik-Drive Pro’ tool.

8 Ensure you have the correct fastener for the job. Fastener suppliers will provide you with the specific fastener you need for any job in steel.

WORK SAFELY WITH STEEL BlueScope recommends safety precautions are taken when working with steel – protect yourself with long sleeves, steel-capped boots, gloves and safety glasses and ensure you have the right tool for the job.
