

Bunnings Warehouse - Keperra

Met-TECH® CASE STUDY

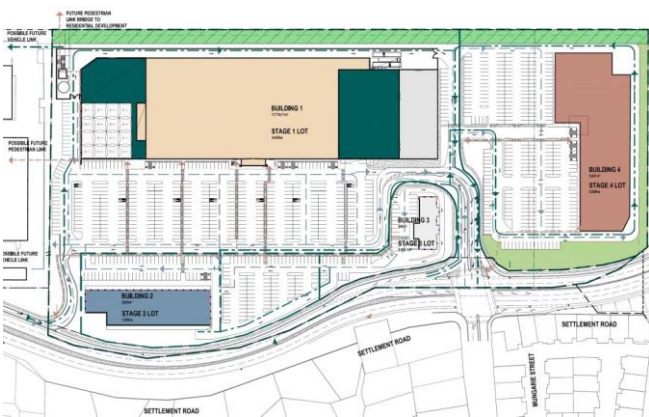

Materials
Metroll Trimclad® & Corodek®

The Project

Bunnings Warehouse is strongly committed to opening new stores across Australia and New Zealand in order to bring a new warehouse-style of hardware shopping to more and more local communities.

Metroll is proud to have been involved in the supply of many Bunnings Warehouse projects including the Keperra store. The project includes, The Bunnings Warehouse building (17,719sqm), and three other separate buildings.
