Studio

200+ COLOURS TO VIEW ONLINE

BlueScope

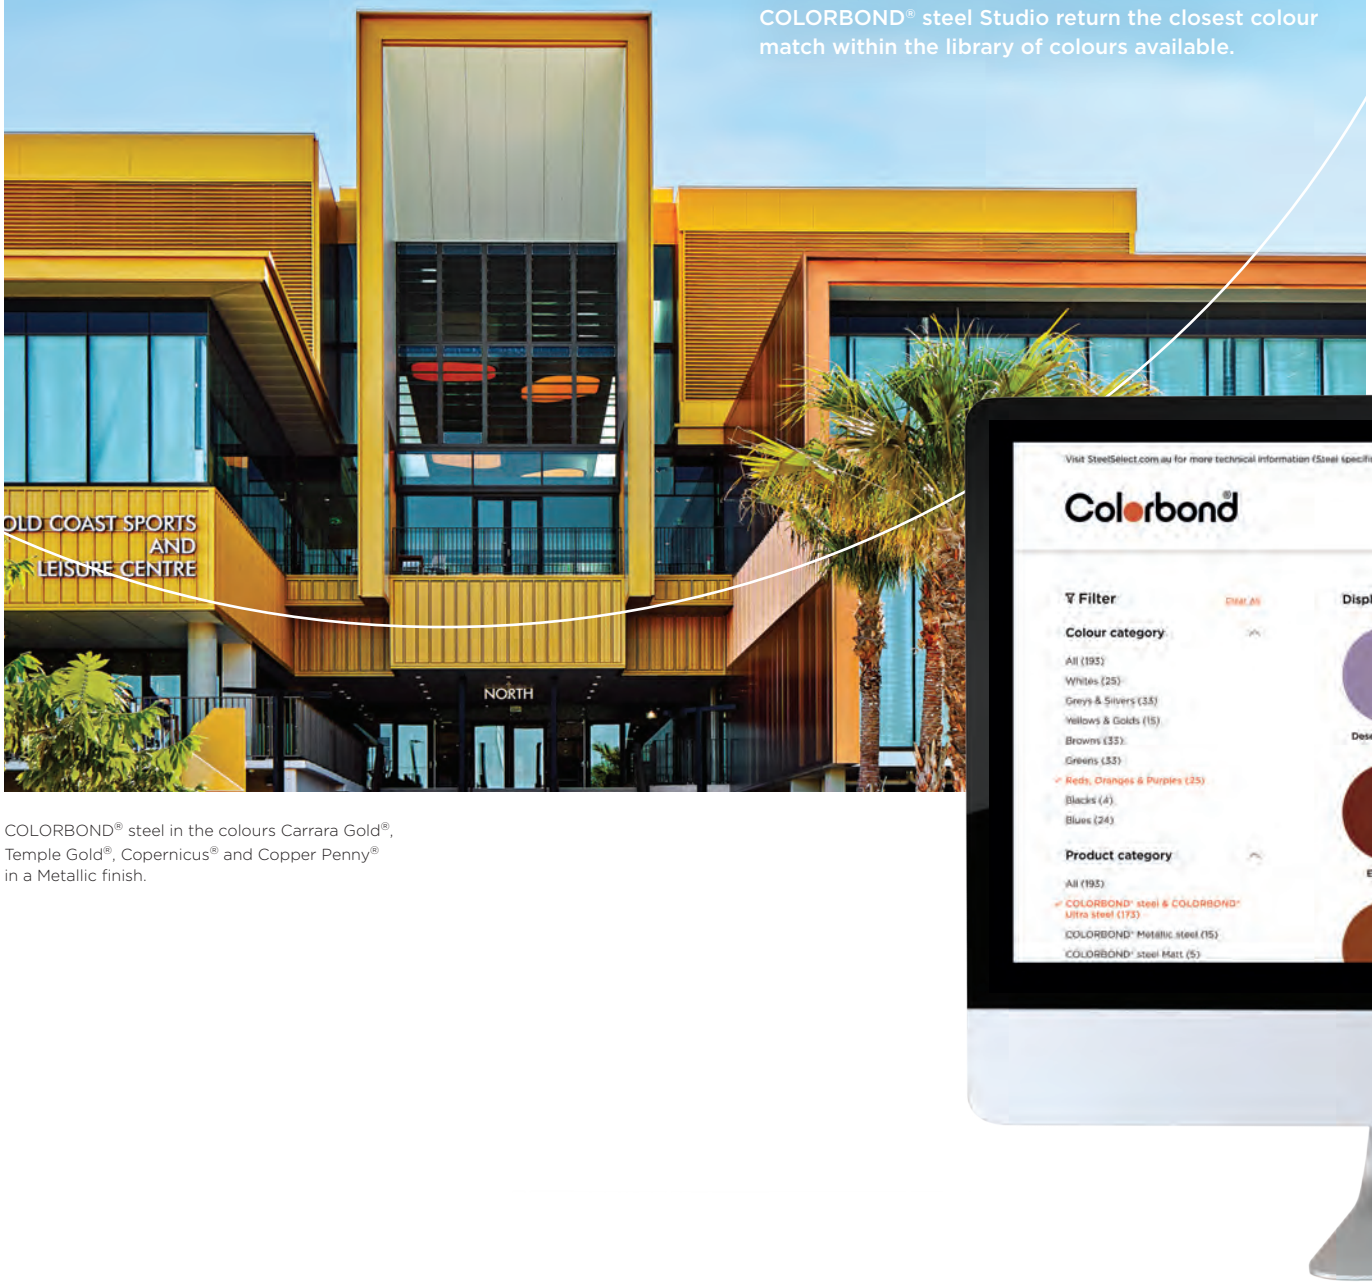

Be inspired. Make choices. Order colour samples.

The COLORBOND® steel Studio gives you the freedom to realise your design vision like never before. Go online and choose from a huge range of over 200 colours and finishes, all with the durability you have come to love.

BE INSPIRED BY COLOUR
Browse over 200 colours and finishes across the colour spectrum. So that you can pinpoint the right colour inspiration for your next project, we've segmented our palette into product categories including COLORBOND® steel, COLORBOND® Ultra steel, COLORBOND® steel in a Metallic finish and COLORBOND® steel in a Matt finish..

BROWSE AND MATCH COLOURS FOR YOUR NEXT PROJECT
The COLORBOND® steel Studio allows you to browse over 200 colours and allows you to filter by colour or product categories. It also provides you with an opportunity to match a colour, allowing you to use RGB or HEX colour values or specify the Dulux or RAL colour names to match to the closest colour and finish in the COLORBOND® steel range.

You can even upload an image and let the COLORBOND® steel Studio return the closest colour match within the library of colours available.

COLORBOND® steel in the colours Carrara Gold®, Temple Gold®, Copernicus® and Copper Penny® in a Metallic finish.

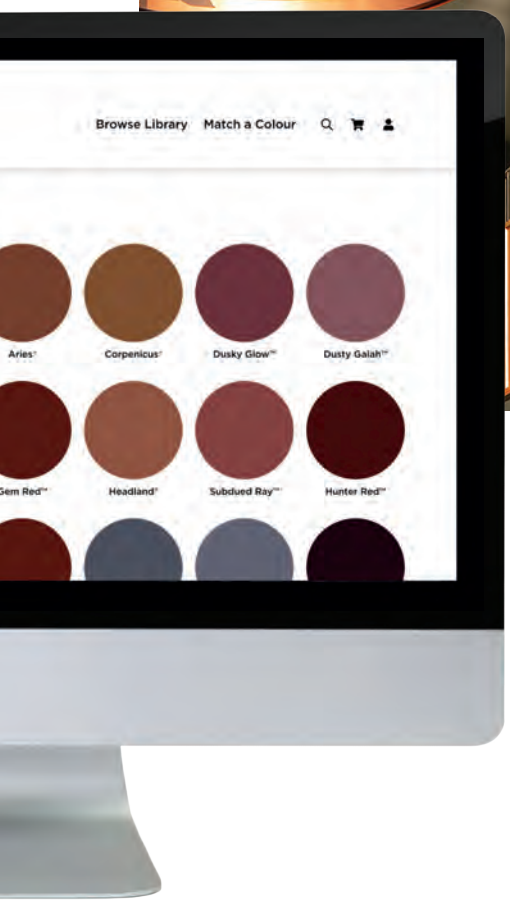

CLICK TO ORDER PROFESSIONAL COLOUR SAMPLES

Once you're happy with the colour chosen, select and add it to your shopping cart to order your colour samples. Each paper sample is approximately 96 x 207mm in size, and you can order multiple samples at a time to share with stakeholders, present in meetings or use in your Development Applications.

CHECK AVAILABLE WARRANTIES

The COLORBOND® steel Studio provides you with the opportunity to select colours and review available warranties[1] via the online warranty estimator tool all with a few clicks of the mouse.

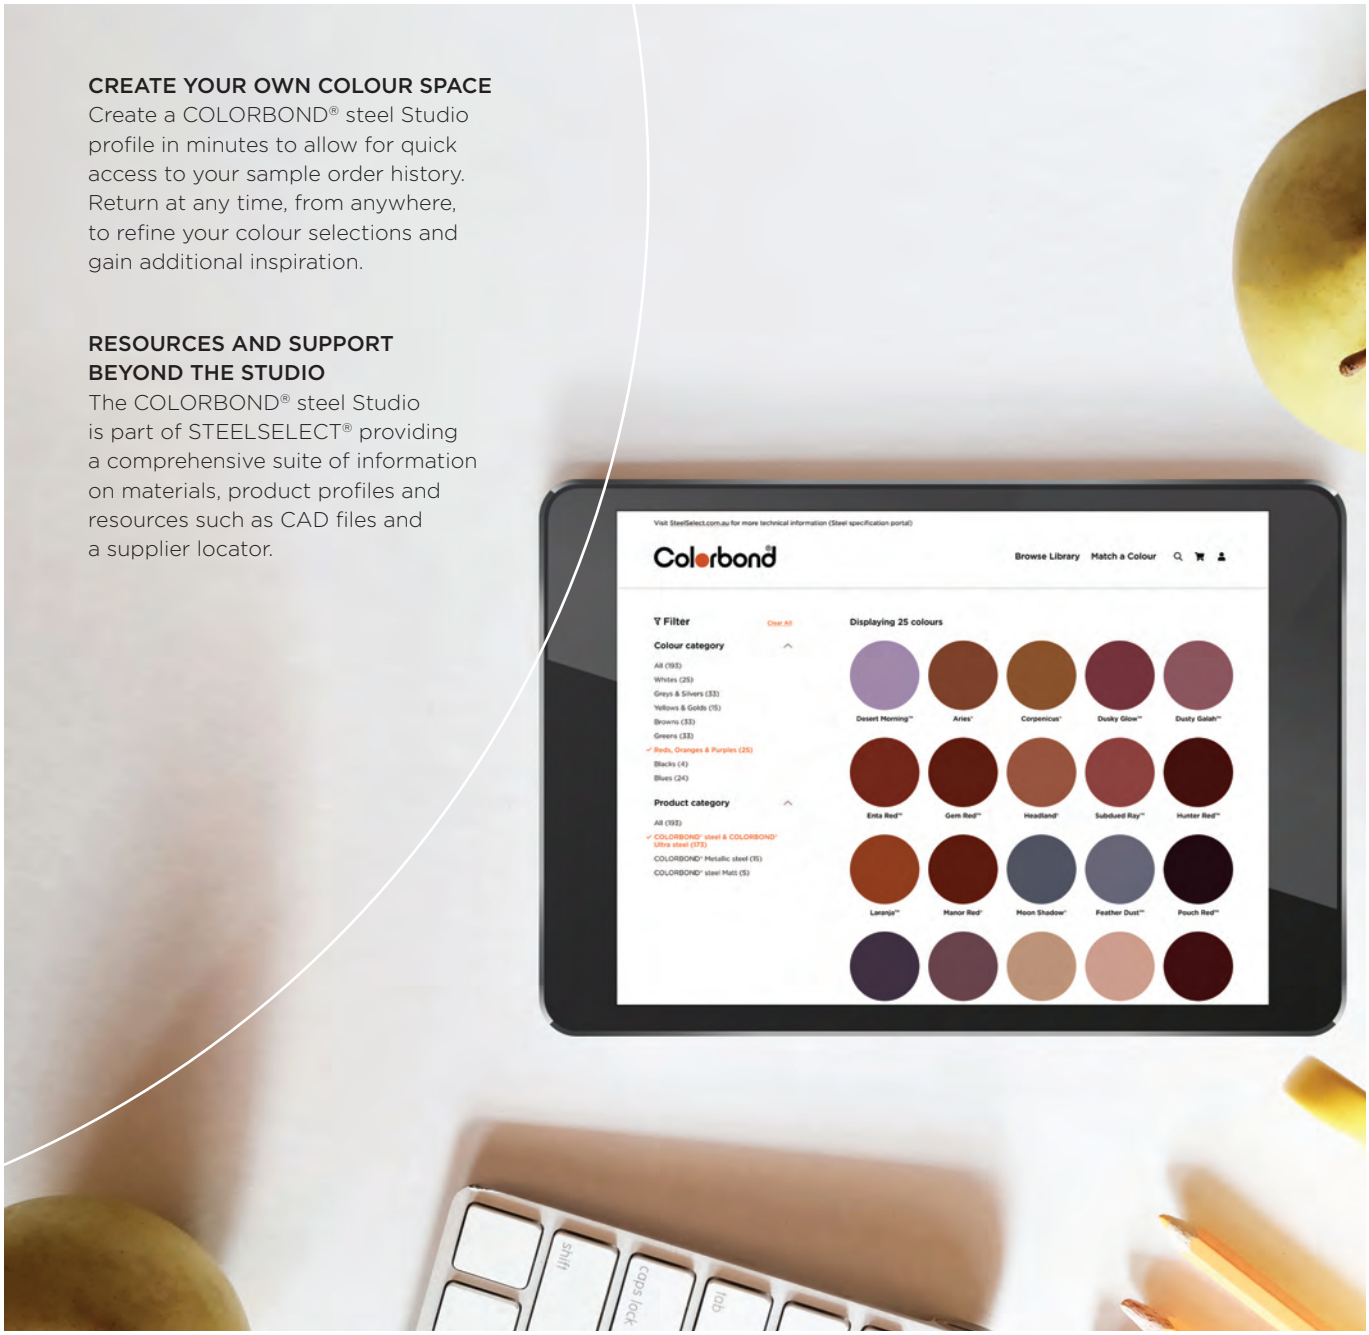

"Using various profiles made from COLORBOND® steel, the colours of Carrara Gold®, Temple Gold®, Copernicus® and Copper Penny® in a Metallic finish, have been beautifully arranged to achieve horizontal and vertical textural variations that break down the building's scale and bulk."
