DECKFORM® steel G550

This datasheet also covers: Low Glare DECKFORM® steel G550.

General description

DECKFORM® steel G550 is a hot-dipped zinc-coated structural steel with a spangled surface* and guaranteed minimum yield strength of 550MPa. Suitable for rollforming to a 4t minimum internal diameter.

* Low Glare DECKFORM® steel has a blue tinted resin coating on one side.

Typical uses

Structural decking that acts as permanent formwork for structural decking and ceiling systems for concrete slabs.
