FIELDERS

The relationship between Fielders, COLORBOND® steel and other BlueScope product brands

COLORBOND® steel is the pre-painted steel that is supplied to Fielders in large coils. Fielders then rollforms the COLORBOND® steel into our range of roofing, walling, guttering and fascia profiles, plus components for fencing systems and home additions such as verandahs, patios and carports. Similarly, Fielders also rollform other BlueScope products such as ZINCALUME® steel, into unpainted roofing, walling, guttering and fascia profiles. For special applications, some Fielders products can also be manufactured using SUPERDURA® Stainless steel and REDCOR® weathering steel.

Colorbond®

COLORBOND® STEEL

From Fielders

For Roofing, Walling, Guttering and Fascia

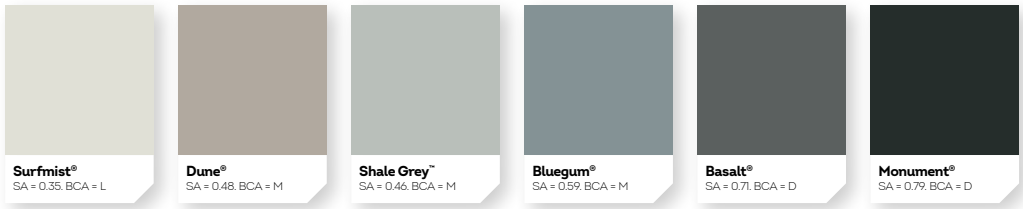

Classic

Designed to weather the unique Australian land, a Classic finish provides a low sheen aesthetic that provides longevity and durability.

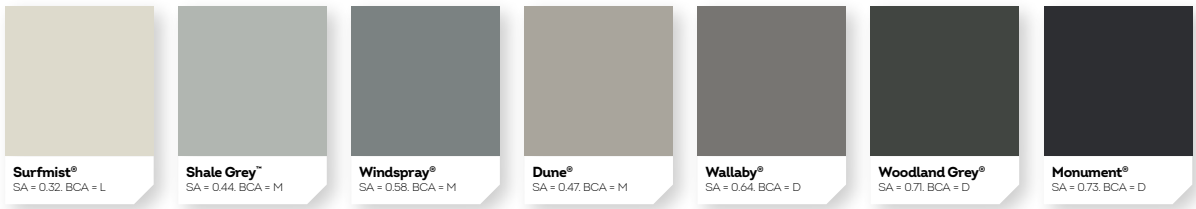

Matt

Soft in appearance yet durable and strong, a Matt finish beautifully diffuses light for a textured designer appearance.

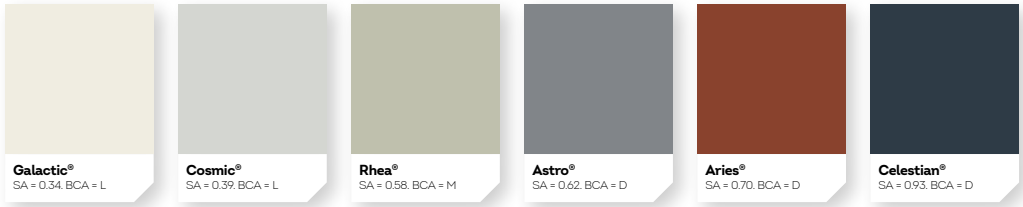

Ultra

For building in marine and industrial environments, Ultra offers another level of specialist protection and durability.

Metallic

The Metallic finish showcases long lasting lustre for colour brilliance. A simple play of light brings out the striking 'metallic' effect.

Colorbond®

COLORBOND® STEEL

From Fielders

For Fencing

Classic

Designed to weather the unique Australian land, a Classic finish provides a low sheen aesthetic that provides longevity and durability.

COLORBOND® STEEL

From Fielders

For Verandahs, Patios and Carports

Double-Sided High-Gloss Roofing[1]

Specially developed for exterior home improvement applications where the high gloss underside acts as an attractive visible ceiling to the structure.

Beams and Posts[2]

Fully engineered, structural steel components in popular Classic colours with the same long-lasting pre-painted finish as found on our roofing and rainwater products.

Colorbond®

SUPERDURA® STAINLESS STEEL

From Fielders

For Roofing, Walling, Guttering and Fascia

Our ultimate pre-painted steel product for corrosion resistance, suitable for very severe marine environments.

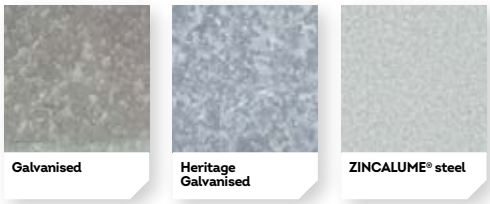

UNPAINTED STEEL

From Fielders

For Roofing and Walling

A range of aesthetics from the large, grey spangles of iconic galvanised steel through to modern, petite spangled ZINCALUME® steel cladding.

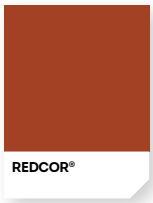

REDCOR® WEATHERING STEEL

From Fielders

For Walling

With a protective patina that changes organically over time REDCOR® can deliver a striking appearance.

A Note on Availability

Not all Fielders® products are available in all materials, finishes and colours shown - contact Fielders, your reseller, builder, or installer for more information.

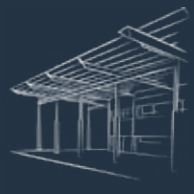

SA and BCA Classification Explained

SA = Solar Absorptance. The classification of colours in the BCA is based on solar absorptance, which is the inverse of solar reflectance, expressed as a ratio between 0 and 1. A SA value of 0 indicates that a roof absorbs none and a value of 1 indicates that a roof absorbs 100% of the incoming solar radiation. Solar absorptance value is not applicable for SUPERDURA® Stainless steel. See the individual colour swatches for the SA value for each product and colour.

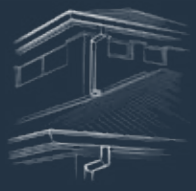

BCA = The Building Code of Australia (BCA) has classified roof colour on the basis of their solar absorptance, referred herein as Light (L < 0.40), Medium (M < 0.60), Dark (D > 0.60). See the individual colour swatches for the ratings available for each product and colour. BCA classification is correct at the time of printing but may be subject to change.
Check your local state building regulations at the time of your project.

Fielders' Product Range

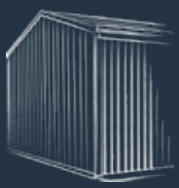

Roofing and Walling

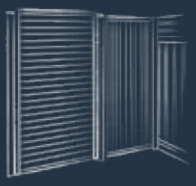

Gutters, Fascia and Rainwater Goods

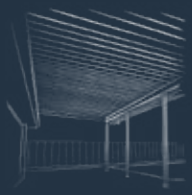

Flooring and Formwork

Sheds

Fencing

The colour swatches shown have been reproduced to represent actual product colours as accurately as possible. However, we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones and finishes. Not all Fielders® products are available in all materials, finishes and colours shown. Material, finish and colour availability is indicative only and is subject to change without notice – contact Fielders, your reseller, builder, or installer for more information.
[1] Double-sided high-gloss roofing is manufactured with classic finish on the topside and high-gloss finish on the underside.
[2] Beams and posts are manufactured with high-gloss finish.
