

# Residential Range

# A little Finesse<sup>®</sup> goes a long way

Explore Fielders' premier suite of steel cladding profiles. Tailored for architects, designers, and exceptional builders, the Finesse<sup>®</sup> range provides a contemporary palette from which to fashion extraordinary homes.

Crafted with 100% Australian-made COLORBOND<sup>®</sup> steel, the Finesse<sup>®</sup> cladding range fuses captivating design possibilities with enduring strength. It encapsulates beauty, purpose, and the defining touch to distinguish your design. Simply put, with Fielders' Finesse<sup>®</sup>, your imagination is the only limit.

Choose from our collection of six distinguished cladding profiles, each curated to add a touch of luxury to your next residential design project. What's more, the Finesse<sup>®</sup> series can be adapted both vertically and horizontally, offering unparalleled design flexibility. And with a plethora of COLORBOND<sup>®</sup> steel colours and finishes to select from, the possibilities are truly vast.

Dare to diverge with a dramatic flair on traditional roofing or introduce a signature design element to a prominent wall. No matter your vision, the Finesse<sup>®</sup> range promises an aesthetic impact that demands attention.

But the Finesse<sup>®</sup> range isn't just about looks. With rigorous testing at Fielders' advanced, NATA<sup>1</sup>-accredited laboratory, we ensure not just lasting aesthetics but also unwavering quality. This cladding range is not only built to impress but also to endure, adhering to the National Construction Code (NCC) of Australia and Australian Standards for both residential and commercial structures. With Fielders' Finesse<sup>®</sup>, you're not just investing in beauty but also in trust.

## Fielders and COLORBOND<sup>®</sup> steel – a perfect combination

COLORBOND<sup>®</sup> steel is Australian-made pre-painted steel that's supplied to Fielders in large coils by BlueScope. Through a process known as rollforming, Fielders forms the COLORBOND<sup>®</sup> steel into roofing, walling, guttering and fascia profiles, plus components for fencing systems and home additions such as verandahs, patios and carports. And where pre-painted products are not needed, Fielders also forms ZINCALUME<sup>®</sup> steel into unpainted roofing, guttering and fascia products.

Colorbond<sup>®</sup>

# Boulevard®

W

With a defined express joint that creates a strong linear impression and clear visual separation between broad, flat sheets, Boulevard® is ideal for use as a feature statement, or equally at ease as a subtle backdrop to complement other architectural features.

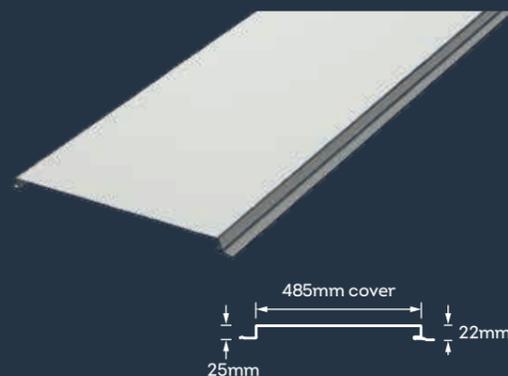

## Key benefits:

- Express joints and hidden fixing
- Available in standard cover widths of 285mm and 485mm, and custom cover widths
- Installation orientation: horizontal or vertical
- Tested for: non-cyclonic and cyclonic classified regions

Boulevard® 285mm

Boulevard® 485mm

Legend W Suitable for walling applications

# Prominence®

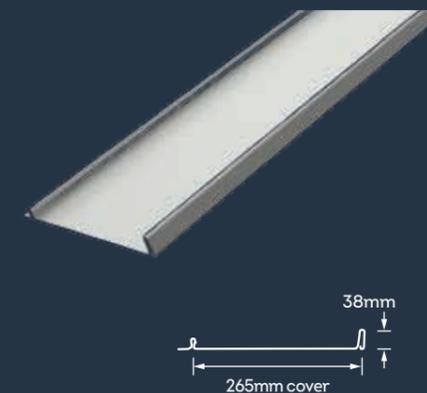

R W

With its broad, flat pans and distinctive mid-height ribs, nail-strip style Prominence® makes a bold and elegant statement in both roofing and walling applications. Delivering striking looks with crisp, clean lines it easily accommodates longer lengths allowing greater spanning capacity and is available two widths providing a flexible application of the profile's design aesthetic.

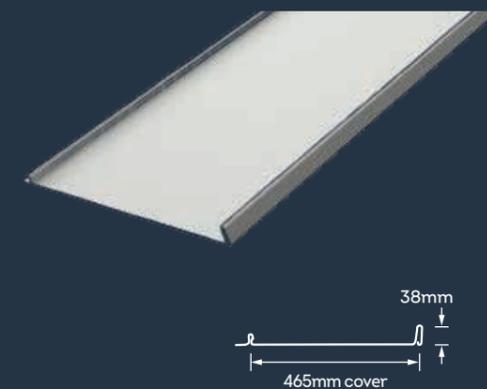

## Key benefits:

- Broad, flat pans and a substantial rib
- Available in standard cover widths of 265mm and 465mm, and custom cover widths
- Installation orientation: vertical only (roofing); horizontal or vertical (walling)
- Minimum roof pitch: 3°
- Tested for: non-cyclonic and cyclonic classified regions

Prominence® 265mm

Prominence® 465mm

Legend R Suitable for roofing applications W Suitable for walling applications

# Cadence™

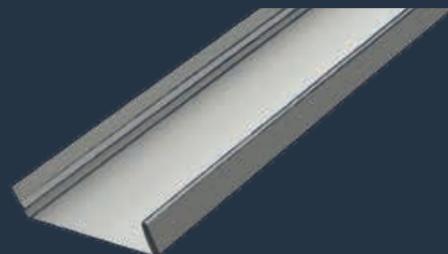

R W

With its generous flat pans and pronounced rib, Cadence™ delivers similar visual appeal as Prominence® but offers clip fixing for optimised thermal performance. Suitable for both walling and roofing applications, Cadence™ is available in two pan widths and is designed to accommodate longer spans.

## Key benefits:

- All the features of Prominence® but clip fixed for optimised thermal performance and longer lengths
- Available in standard cover widths of 265mm and 465mm, and custom cover widths
- Installation orientation: vertical only (roofing); horizontal or vertical (walling)
- Minimum roof pitch: 3°
- Tested for: non-cyclonic and cyclonic classified regions

Cadence™ 265mm

Cadence™ 465mm

# Grandeur®

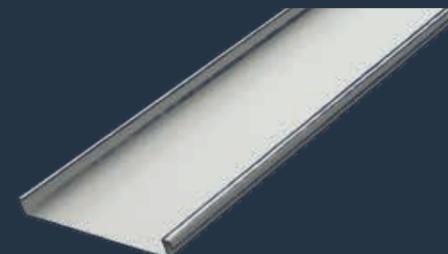

R W

Grandeur® is a standing-seam roofing profile with a contemporary appearance. It features flat pans and short, delicate ribs that complement virtually any architectural design. The profile is available in substantial pan width options of up to 525mm, giving it a crisp, clean appearance. The curving capability of Grandeur®, makes it an attractive choice for architects and designers who are looking to add sweeping curves to their projects.

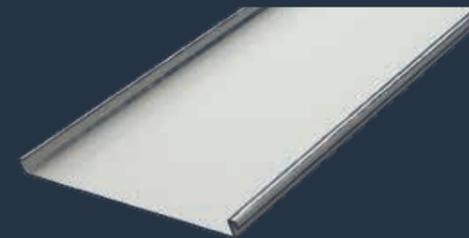

## Key benefits:

- Impressive curving capabilities
- Available in standard cover widths of 325mm and 525mm, and custom cover widths
- Installation orientation: vertical only (roofing); horizontal or vertical (walling)
- Minimum roof pitch: 3°
- Tested for: non-cyclonic regions only

Grandeur® 325mm

Grandeur® 525mm

Legend **R** Suitable for roofing applications **W** Suitable for walling applications

# Shadowline® 305

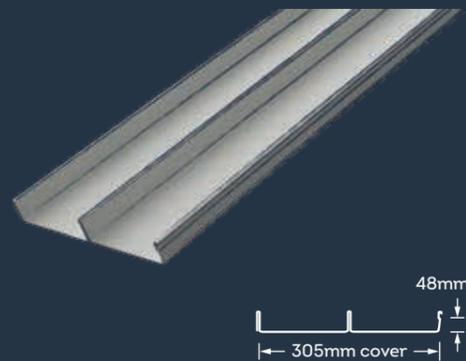

**R** **W**

With prominent deep ribs and narrow pans, Shadowline® 305 is a detail-rich profile that will make a bold statement for both roofing and walling. A concealed fixing system maintains its clean lines, while the ability to mount either vertically or horizontally opens a myriad of design possibilities, either as a feature element or for broader use throughout the project. Shadowline® 305 also boasts impressive rainwater carrying capacity, making it suitable on roofs with only 1° of pitch.

## Key benefits:

- Narrow pans with a deep rib
- Standard cover width: 305mm
- Installation orientation: vertical only (roofing); horizontal or vertical (walling)
- Minimum roof pitch: 1°
- Tested for: non-cyclonic and cyclonic classified regions

Shadowline® 305mm

# Neo Roman™

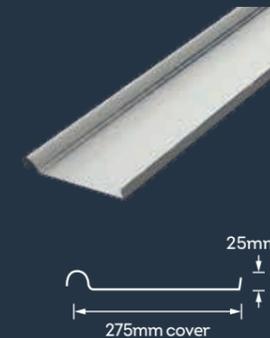

**R** **W**

Neo Roman™ offers an ornate alternative to the angular and pronounced rib designs of many modern roof styles with its rounded hemispherical finish and option of either single or double rib profiles. While traditional in styling, Neo Roman™ sits equally well as a heritage-inspired profile for the roofs of period homes or in a contemporary setting where it can also be applied as walling, either vertically or horizontally to great visual effect.

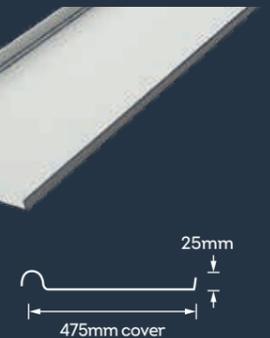

## Key benefits:

- Heritage-inspired flat pans contrasted with hemispherical ribs
- Optional single or double rib profiles
- Available in standard cover widths of 275mm and 475mm
- Installation orientation: vertical only (roofing); horizontal or vertical (walling)
- Minimum roof pitch: 5°
- Tested for: non-cyclonic regions only

## Heathpool

**Location:** Adelaide Hills, SA  
**Architect:** Black Rabbit Architecture

Fielders Prominence® roofing in COLORBOND® steel Monument® and Boulevard™ walling in Night Sky® help create an exterior aesthetic that harmonises with and complements the existing street appeal.

## Warwick

**Location:** Melbourne, VIC  
**Builder:** RUBIKS®

The strong, clean lines of the Fielders Prominence® in COLORBOND® steel Monument® Matt chosen for the walls of this unique home deliver a bold, engaging aesthetic.

# Fielders Finesse® Colour Range

## COLORBOND® STEEL

From Fielders

For Roofing, Walling,  
Guttering and Fascia

### Classic

Designed to weather the unique Australian land, a Classic finish provides a low sheen aesthetic that provides longevity and durability.

## COLORBOND® STEEL

From Fielders

For Roofing, Walling,  
Guttering and Fascia

### Matt

Soft in appearance yet durable and strong, a Matt finish beautifully diffuses light for a textured designer appearance.

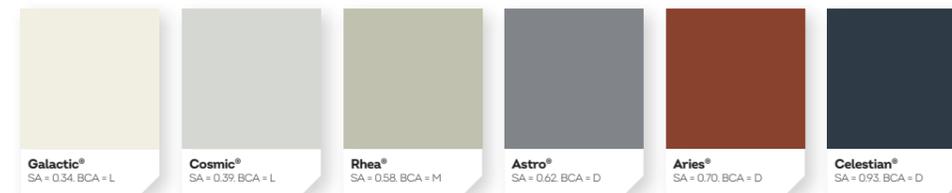

### Ultra

For building in marine and industrial environments, Ultra offers another level of specialist protection and durability.

### Metallic

The Metallic finish showcases long lasting lustre for colour brilliance. A simple play of light brings out the striking 'metallic' effect.

## SUPERDURA® STAINLESS STEEL

From Fielders

For Roofing, Walling,  
Guttering and Fascia

Our ultimate pre-painted steel product for corrosion resistance, suitable for very severe marine environments.

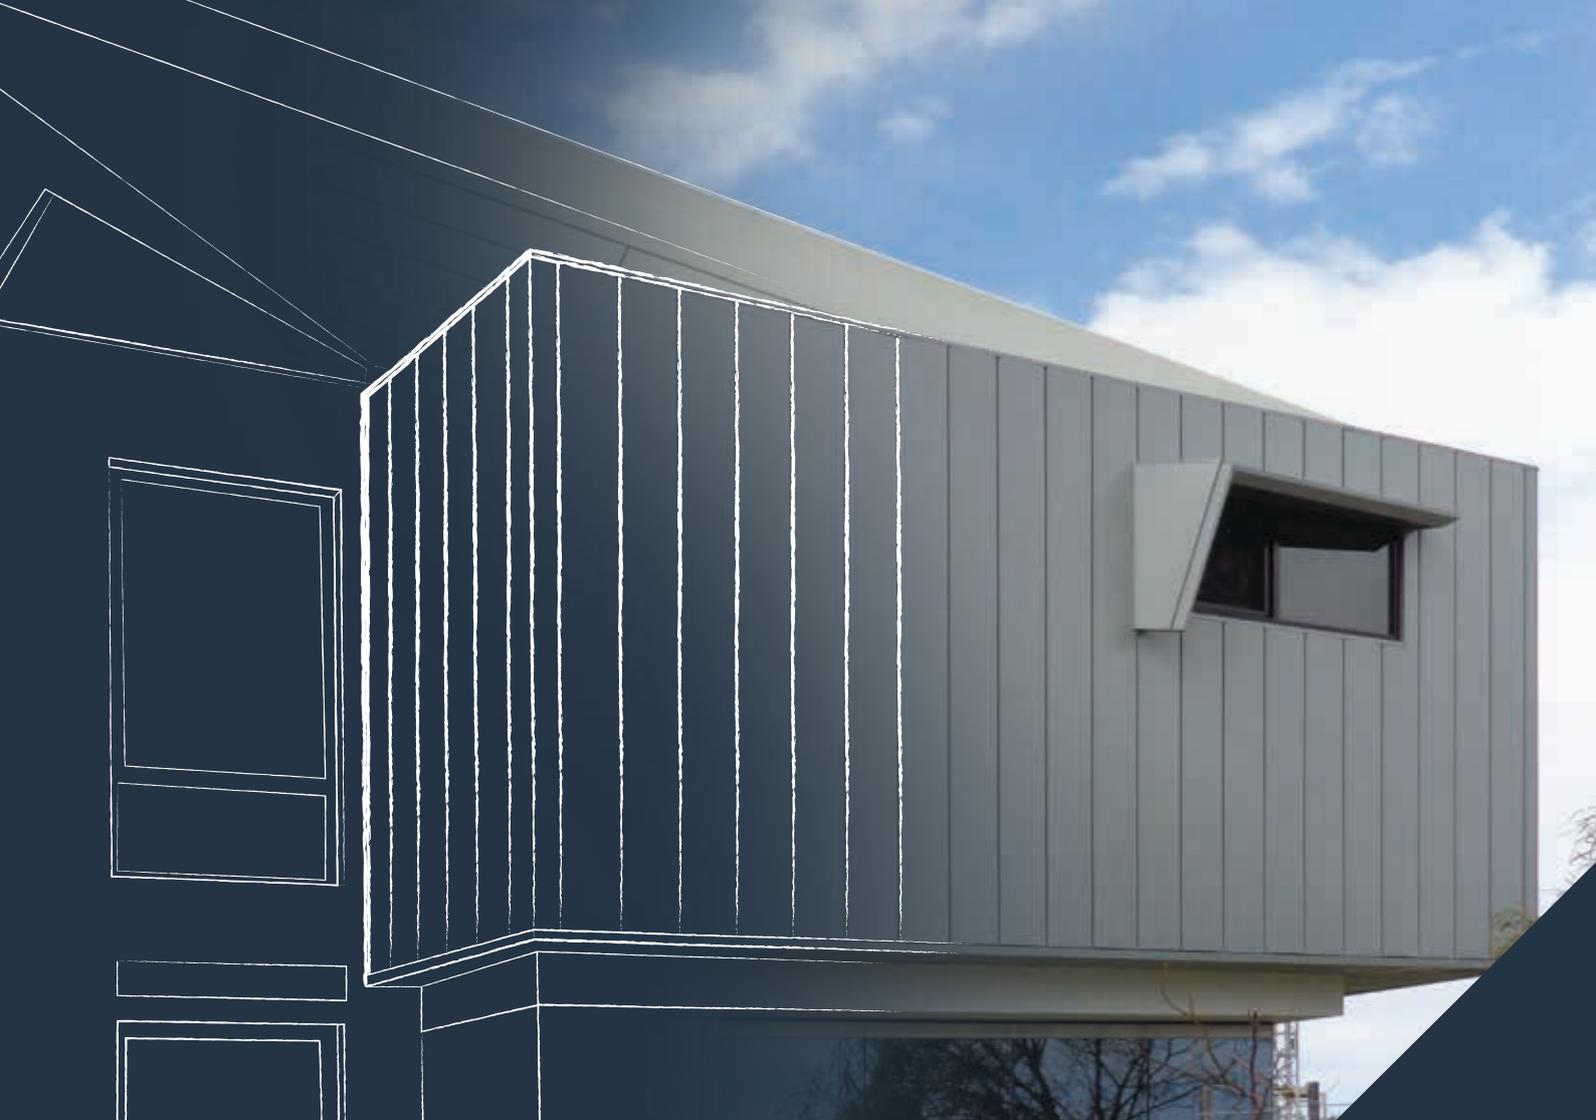

## UNPAINTED STEEL

From Fielders

For Roofing  
and Walling

A range of aesthetics from the large, grey spangles of iconic galvanised steel through to modern, petite spangled ZINCALUME® steel cladding.
