

LapDek

Roof Lap Joint System For LOKDEK 700

LapDek Roof Lap Joint System

LapDek is an expansion joint and roof lap sealing system designed specifically for Steeline roofing. It offers roofing installers a quick, efficient, and cost-effective solution for handling long-length roof sheet spans.

Made from high-strength steel, LapDek has undergone rigorous testing to ensure it can endure harsh conditions, including strong winds and heavy rainfall. It meets the Australian standards for uplift testing (AS/NZS 1170.2) and has been subjected to advanced leak seal tests, including submersion testing at a rate of 16L/m².
