

STRAMIT SUNSET[®] PATIO ROOF PANELS

Strong, weather-resistant patio solutions

Part of Stramit's extensive range of roofing, walling, rainwater and structural products.

THE BEAUTY IS
IN THE DETAIL

Stramit Sunset® Patio Roof Panels were designed specially for the home improvement market, to make it easy to create stylish verandas, patios, barbecue areas and carports.

UNIQUE STYLISH DESIGN

The unique design gives the underside of the roof a continuous surface, with no gaps between the panels, while the high gloss finish adds a touch of class. The absence of gaps also keeps out dust and insects, while the interlocking panels provide strength and a weather-tight seal.

INTEGRATED SYSTEM

This integrated patio roof system can be supplied with beams and accessories such as gutters, flashing and downpipes, as well as translucent panels in opal shade for natural lighting.

COST EFFECTIVE HOME IMPROVEMENT

Manufactured from long-life, high tensile steel and finished in a range of COLORBOND® steel high gloss colours, **Stramit Sunset® Patio Roof Panels** are a cost-effective way to add space and value to your home.
